

H Healthcare Pharmacy

Abbreviations - Medication Names:

ACE - angiotensin converting enzyme

ACTH - adrenocorticotrophic hormone

ASA - aspirin

AZT* - Zidovudine (Retrovir®)

D5NS - 5% dextrose in normal saline

D5W - 5% dextrose in water

D10NS -10% dextrose in normal saline

D10W -10% dextrose in water

DSS - dioctyl sodium sulfosuccinate

EC - enteric-coated

ETOH - ethanol/alcohol

FA - folic acid

FeSO₄ - ferrous sulfate

FFP - fresh frozen plasma

5-FU - 5-fluorouracil

H₂blocker - histamine-2 receptor antagonist

HC- hydrocortisone

HCl* - hydrochloric acid

HCT* - hydrocortisone

HCTZ* - hydrochlorothiazide

KCl - potassium chloride

MOM - milk of magnesia

MVI - multiple vitamin

MgSO₄* - magnesium sulfate

MSO₄* - morphine sulfate

MTX* - methotrexate

NPH - Neutral Protamine Hagedorn

(insulin)

NS - normal saline

NSAID - non-steroidal anti-inflammatory drugs

OTC - over-the-counter

PCN - penicillin

PPD - purified protein derivative

PTU - propylthiouracil

PZI - protamine zinc insulin

RAI - radioactive iodine

SMX-TMP - sulfamethoxazole and trimethoprim

SSKI - saturated solution of potassium iodide

SSRI* - selective serotonin reuptake inhibitor; sliding scale

regular insulin

TAC* - triamcinolone

ZnSO₄* - zinc sulfate
